Bandbo.com launches The Bo Boards — Local Music Charts

Bandbo.com, the east coasts fastest growing local music site, has launched Bo Boards Local Music Charts. Artists can submit their songs for free to be voted on by Bandbo visitors. Songs are listed by the number of votes they receive. The top 5 songs for each state are listed on that states Bandbo homepage. Bandbo visitors can listen to the songs via a small flash player and also visit the artists homepages through links provided in each artists listing.

Since Bandbo started Bo Boards it has received thousands of page views and just as many votes to reflect that. Artists have been in fierce competition with each other to remain on the top of the charts. Unlike mainstream charts where ranking is based on sales, Bandbo has created a strictly listener based rating system.

Bo Boards is yet another way Bandbo is helping to promote artists, giving local talent another free outlet to promote their music. Not only does this allow for new music to be easily heard but gives artists and their fans a new form of interaction.

Bandbo.com is revolutionizing the local music scene. A truly unique site offering pure resources, networking opportunities and free promotional tools to meet the needs of local artists in today's growing online environment.

Permission is granted to use material on this release. Visit www.bandbo.com.
